OCEAN SAFETY MOB LADDER

OCEAN SAFETY®

Ocean Safety,
Saxon Wharf,
Lower York Street,
Southampton,
SO14 5QF, UK.

www.oceansafety.com

The Ocean Safety MOB Ladder is designed for use in a man over board situation. Easily operated from the water to allow a MOB to re-board their vessel unaided, whilst its rigid rungs offer increased stability.

The Ocean Safety MOB Ladder complies with the ISO 15085 standard and can be installed on vessels specified to carry this type of recovery product.

Available in 3m or 4m ladder lengths and fastened to the guard rail of the vessel and whilst not in use is stored discreetly in a company branded white valise.

PART NO.	DESCRIPTION
SAF0180	3m Ladder – White with blue print
SAF0185	4m Ladder – White with blue print
