Product data sheet

JB22 Lifejacket Chest

Typical use:

For the storage of foam filled Lifejackets. This chest is widely used in the Offshore energy and marine sectors.

Description:

These chests are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the lid aperture. The hinges and catches are secured with 316 stainless steel nuts, bolts and washers.

Standard specification:

Dimensions (mm)

Height x width x depth: 605 x 935 x 480

Aperture: 874H x 354W

Internal depth: 549

Weight Kg: 16Kg

Material specification:

Colour: Orange RAL 2009

Material: Lloyds approved composites with UV stabilised

gelcoat

Hinges: 316 Stainless steel

Door catch: Stainless Steel protex style catch

Seal: EPDM

Optional Extras:

Other RAL colours

Class 1 fire retardant composites

Heating and insulation

Vents

Manufactured in the UK
