

MK8 IMMERSION SUIT

The MK8 non-insulated immersion suit has been designed as an easy don, lightweight immersion suit.

It is manufactured using tough polyurethane coated nylon fabric and the high visibility colour greatly improves survivor location, especially in low light conditions.

The MK8 is designed to give a generous fit and is available in two sizes, universal and extra large, which will accommodate a wide range of personnel. When packed in its valise it is extremely compact and can be stowed easily for emergency situations.
